

Application Number 10/529,965

Amendment dated September 24, 2008

Reply to Office Action of June 27, 2008

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. A method for detecting changes in indications of vital functions of a patient, wherein at least one imaging sensor incorporated in the anterior face of a tube used to convey fluids into and out of the body, in said patient, continuously sends signals which are interpreted to indicate changes of said indications.
2. A method for detecting changes in indications of vital functions of a patient, as in claim 1 and wherein an alarm is set when a change of said indications of vital functions of a patient pass a predetermined threshold.
3. A method for detecting changes in indications of vital functions of a patient, as in claim 1 and wherein said signals are images.
